Lathe work			x	
Rubber parts				x
Dumbbells and weight discs				x

This voluntary warranty promise is valid from the day of delivery. It applies to the first-time commercial customer. This is complementary to the warranty for material defects according to our General Terms and Conditions of Payment and Delivery (GTC). So far, we refer to our General Terms and Conditions.

Within the scope of the warranty, it is solely at our discretion whether subsequent performance (rectification of defects) is provided or a defect-free item is delivered. The warranty service refers to the replacement of the defective part including postage and shipping costs. If installation and removal by a specialist technician is desired, this must be ordered separately by the customer, after known service costs (specialist technician and travel), and subject to costs.

The instructions in the assembly/training manual on assembly, installation, safety, use and maintenance must be observed. Normal wear and tear,

damage due to improper use (e.g. external force such as dropping the weight plates, the training arm or the dumbbells), damage due to insufficient or irregular maintenance, due to installation errors by the operator, improper repair or modifications are excluded from the warranty.

Furthermore, discoloration in the area of the upholstery due to sweat, UV radiation or other weather-related influences as well as optical impairment of frame and add-on parts that do not represent functional limitations are excluded.

We would like to draw your attention to the fact that devices with clear varnish coating should only be used indoors. With this color variant, corrosion may occur for technical reasons despite the clear varnish coating. In this case, gym80 is neither liable nor guaranteed for any corrosion that may occur.

After the occurrence of a warranty claim, the claim under the warranty must be made in writing to gym80 International GmbH within 14 days from the date of knowledge.
